SKILLS

- **Programming:** Python, C++, Java
- **Computer Science:** Data Structures & Algorithms, OOP, DBMS (Basics)
- **Data & ML:** Data Cleaning, EDA, Basic Statistics, Supervised Learning
- **Tools:** Git, GitHub, MySQL, Jupyter Notebook

PROJECTS

Sports Event Management System | [GitHub](#)

Jun '25

- Built a full-stack event management platform supporting 100+ concurrent users, featuring user registration and real time event tracking
- Optimized backend workflows and database operations to ensure scalability and consistent performance
- Implemented secure backend logic with authentication and validation, reducing invalid or unauthorized requests by ~40%

Tech Used: React, Node.js, API's, SQL

History chatbot with API integration | [GitHub](#)

Apr '25

- Developed an intelligent chatbot to deliver accurate, context-aware historical responses using external APIs
- Created a clean and user-friendly web interface to enable smooth conversational interaction
- Learned how to handle real-world datasets, interpret model results, and evaluate predictions responsibly

Tech Used: Javascript , API's , HTML, CSS

Farmer Smart Irrigation Assistant (Supervised Machine Learning – Classification) | [GitHub](#)

Mar '25

- Built an ML-powered irrigation assistant that analyzes weather data, soil conditions, and moisture levels
- Automated irrigation decision-making to improve water utilization efficiency and reduce manual effort
- Designed a responsive interface to display real-time recommendations for better field adoption

Tech Used: Python, Machine Learning , Streamlit

TRAINING

Mastering Data Structures and Algorithms | [Certificate](#)

Jul '25

- Developed a strong foundation in Data Structures and Algorithms, including arrays, strings, linked lists, stacks, queues, trees, recursion, and basic dynamic programming
- Solved interview-oriented DSA problems using C++, focusing on improving time and space complexity through optimized solutions
- Enhanced problem-solving and analytical skills by practicing algorithm design, edge-case handling, and complexity analysis on real-world problem statements

CERTIFICATES

- Introduction to internet of things | [NPTEL](#)

Oct '25

- Natural Language Processing Training | [Internshala](#)

Aug '25

- SQL for Data Analysis | [Internshala](#)

Jul '25

ACHIEVEMENTS

- Solved 160+ Data Structures & Algorithms problems on LeetCode

Feb '26

- Qualified CBSE Chemistry Level-2 Olympiad

Oct '20

EDUCATION

Lovely Professional University

Bachelor of Technology - Computer Science and Engineering; **CGPA: 7.25**

Phagwara, Punjab

Since Apr '23

Saint Fateh Singh Convent School

Intermediate; **Percentage: 77.4%**

Maur, Punjab

Apr '21 – Mar '23

R.M.M.D.A.V Sen Sec Public School

Matriculation; **Percentage: 74%**

Raman Mandi, Punjab

Apr '20 – Apr '21
